# ALTERNATORS & STARTERS

## DC-MOTORS & DYNASTARTERS

Edition 2015/2016

## Our Starters and Alternators - Your first choice

Updated catalogue:

- Our program is continuously extended with new part numbers - incl. start/stop units
- Units for passenger cars, light & heavy commercial vehicles, industrial, agricultural, marine, sport and outdoor equipment applications

This brings the HC-CARGO program to a leading position concerning market coverage.

The catalogue also includes a complete cross reference list.

All units are sold outright. The program predominantly consists of new units. In exceptional cases units might be remanufactured.

Remanufactured units will not be sold to countries where import of reman units is prohibited.

The "5★" icon will help you in making your product choice. If the icon appears, the part is in OE quality, the best possible quality on the market. If no icon appears, the part is in the aftermarket quality you know from HC-CARGO - tested at our own testfacilities before launch.

HC-CARGO 5\* program contains what in the automotive aftermarket is known as original spare part. The suppliers of these parts are OE manufacturers.

Beside our web-catalogue at [www.hc-cargo.com](http://www.hc-cargo.com) the alternator and starter program is furthermore available online on TecDoc in which new applications are continuously added as well as latest and updated technical information.

## High Quality Spare Parts for Starters and Alternators - All You Need

In our catalogues for starters and alternators you will find our comprehensive range of spare parts, covering a large portion of all vehicles in the European market. Here you will find what you need in bearings, pulleys, rotors, stators, regulators, rectifiers, brush sets, drive clutches, solenoids, armatures etc.

Our engineers test the spare parts thoroughly in terms of best interaction, perfect fit and easy installation, before the products are sourced. In this way we continuously ensure high quality.

With the HC-CARGO program you have an one-stop-supplier opportunity regarding parts for units.

Becoming an HC-CARGO supplier is not easy. They have to fulfil a long list of preconditions and need to be DIN EN ISO 9001 certified. Last but not least they have to convince me. Together with the quality department I visit our suppliers and test them intensively before they deliver the first products.

As we continuously are developing and extending our program you get the up-to-date and complete program by using our web-catalogue at [www.hc-cargo.com](http://www.hc-cargo.com)
